

## bootstrap-sass #829

Navbar (fixed navbar) dropdown menu broken on 3.3.3, 3.3.2

Works on 3.3.1, not on 3.3.2 or 3.3.3. Clicking on the drop down does nothing. Regular <li> menu items work.

Drop down menu Flicker on Page Reload

every time i navigate to a new page the dropdown menu display. go to this page <url>. reload the page and you will see what I mean. Thank you in advance.
